

Part of Our Community

Song, dance and unity

It's time for another Pasifika Celebration Day and the whole Horowhenua community is invited to join in the free music, dancing and feasting.

Members of the community from many different cultures and backgrounds attended the first two events.

Fale Pasifika Horowhenua vision for the celebration day is to provide an opportunity for people from every Pasifika nation to come together and

celebrate who they are and what it means to be Pasifika.

All eyes will be on the main stage where groups will perform traditional and contemporary items from their respective islands.

Stalls will offer a huge range of island cuisine and craft.

The community celebration of Pasifika cultures is being held at the Levin Adventure Park on Saturday, February 16 from 11am. There's free parking at the Durham Street entrance and at St Joseph's School.

BOATING SAFETY

Sailing or moving boats near powerlines can be dangerous as many yachts exceed the standard safe clearance height of 4 metres. The main risk when boating near powerlines is the mast contacting overhead wires, potentially causing injury or death for the crew or others near the boat.

Launching or retrieving boats from the water using a trailer is also hazardous as many people forget to check for overhead powerlines near water. There are often powerlines in car parks or near boat-ramps at marinas, and these should be observed by sailors before entering or leaving the water. Motorboats with large aerials or radar equipment should also avoid travelling near powerlines.
