The well-being of all women is at the heart and soul of the Kapiti Women's Centre. Through classes, information, and a safe place to share and receive support, the centre continues to be the turning point and inspiration for many local women.

If you need a challenge or want to explore your potential, there are many wonderful courses at the centre. Term 4 starts October 11. There are places still available in art classes like needle felting and making marvellous mirrors; transforming communication; and learning about stress and relaxation.

Kapiti Women's Centre now provides two new services: budgeting advice (every second Thursday starting October 14, 5pm-7pm), and legal advice (third Thursday of the month, 5pm-7pm.) Appointments are essential. Other centre services include counselling, clothing exchange, crèche alongside courses, support and a chat, and referral to other agencies.

Even if you're not sure what you need, or you just want to reach out but aren't sure how, please get in touch. You will always be welcomed and supported. All services are confidential.

It is never too late to be who you want to be.
