Showcase Your Volunteer Group

This page is dedicated to profiling those who do amazing volunteer work in our community.

If you are involved in a not-for-profit community organisation in the Horowhenua or Kapiti area, and would like to use this page to reach out to others, we would love to hear from you.

Electra, your locally owned electricity network company, is very proud to sponsor this monthly page - it's our way of saying thank you to all those who raise the spirits of so many.

Let us help you reach out to others. Share your event, appeal week, need for volunteers or stories.

Let us create a page that will help get your message across.

Email Frankie Webb on theforge@xtra.co.nz with your day/evening contact details.

BOATING SAFETY

Sailing or moving boats near powerlines can be dangerous as many yachts exceed the standard

safe clearance height of 4 metres. The main risk when boating near powerlines is the mast contacting overhead wires, potentially causing injury or death for the crew or others near the boat.

Launching or retrieving boats from the water using a trailer is also hazardous as many people forget to check for overhead powerlines near water.

There are often powerlines in car parks or near boat-ramps at marinas, and these should be observed by sailors before entering or leaving the water.

Motorboats with large aerials or radar equipment should also avoid travelling near powerlines.

Electra

owns and operates the electricity network throughout Kapiti and Horowhenua.

Our owner is the Electra Trust. Electra's Trust ownership ensures that we deliver an annual electricity sales discount to all consumers connected to our network.
