

Electra powering your 2021

Electra, your local Electricity distributor in Kapiti & Horowhenua, 24 hours a day, come rain or shine strives to keep you connected and the lights on.

Covid-19 changed the way we work, deploying smaller agile teams, to help keep our staff and the wider community safe. We've adapted our approach to maintenance work to reduce planned outages on the electricity network.

On average customers in the Electra region still receive the smallest bills in the country. However, because of increasing materials costs and Transpower transmission charges we have needed to increase our prices. For a typical household the price increase is less than a coffee a month.

Please go to www.moneyforjam.electra.co.nz to help you select the best plan to have the lowest power bills.

Electricity Network Prices Kāpiti Coast and Horowhenua: Effective 1 April 2021

Electra owns and operates the electricity lines and distribution assets in the Kāpiti-Horowhenua region. Electra invoices these prices to Electricity Retailers, who then include these in your regular electricity bill. Electra Electricity Network Prices from 1 April 2021 (excluding GST). **More information:** www.electra.co.nz/prices

Notes:
1. The "All Inclusive" option is only available to existing users who have electric hot water on either a Night (N) or Night Boost (B) meter which, if required, is able to be controlled by Electra. 2. ToU = Time of Use
3. Available 7 days including local and national public holidays 4. EV = Electric Vehicle 5. Electra will limit the eligibility to the EV ToU option to Residential households with plug-in hybrid (PHEV) or Battery EV (BEV) NZTA registered as a passenger carrying vehicle at an address with-in our network area (validation required) 6. For those who are generating electricity on their premises and exporting some or all of this into Electra's distribution network. **Power Factor Premium** This applies to commercial customers. Where the power factor is less than 0.95 Electra reserves the right to impose a power factor premium. The premium will be based on a multiplier of 2% of the monthly total Network price for every 0.01 power factor below 0.95 lagging. **Capacity Charging on Standard (Industrial)** Capacity Charging only applicable to Standard (Industrial) and optionally applied.
